**Prepared By:
Mohd Asif**

Kabir Technocrats

F36, 1st Floor, Main Road
Okhla, New Delhi, Delhi 110025

www.kabirtechnocrats.com
info@kabirtechnocrats.com

The objective of the Project:

The system can provide an automated way of managing product activities, activities like adding/deleting/editing products with the details and upload option to add images up to 5, a product-related video.

Also, it helps to set the position ordering of products to be displayed on the landing page accordingly.

It will have the option to request a quotation for a particular product.

Key Features

- Design the project structure
- Design the responsive pages to support all devices like Mobiles, Tabs, Desktop, etc
- Admin login to add/ edit/ delete and ordering the products
- Implementation contact us, inquiry, careers, about us, home, etc
- Implementation/ setup Emails
- Hosting on the server

Technology Stack:

A technology stack, a solutions stack, a technology infrastructure, or a data ecosystem, is a list of all the technology services used to build and run one application.

.Net Core 2024, MVC, Rest APIs, SQL Server 2020, Bootstrap, HTML.AI

The above stack is one of the best in the business as of now. It is faster, more secure provides a great user experience, easy to manage, scalable, and works on APIs for a great user experience.

The Aeron Cold Chain Solutions responsibilities:

- All images/ video of the nature of business shall be required by the AERON
- All module's static contents shall be required by the AERON
